## MOTIVATION STATEMENT

Lorem Ipsum, TODO: fill with targeted statement.

## EDUCATION

Highschool Diploma - Vysvědčení s Maturitní Zkouškou

Gymnázium Písek

02/2020 - 05/2022

gymna-pi.cz

**Notable:** Research and lecture on capacitive soil moisture measuring and IoT, Physics Seminar, Mathematical Literacy, Philosophy, Newspaper Chief Editor, Student Council Chairman

Gymnázium Omská

09/2017 - 01/2020

omska.cz

**Notable:** Global Politics, delegate and chair at European Youth Parliament and Model United Nations Conferences, Newspaper Chief Editor, Student Council Chairman

## EXPERIENCE

Founder

Seedling, s.r.o.

08/2020 - 09/2021

mattmor.in/projects/seedling

- Bootstrapped development of an IoT plant health monitoring system (hardware, PCB design, software, manufacturing). Gained hands-on experience in project management and engineering.
- Led a small team to validate the technical feasibility of the system using non-corrosive soil moisture sensors (based on my high school research).
- Identified a cost barrier at the consumer level ( 20€/unit production cost) during MVP development for sustainable agriculture solutions. Project concluded due to this barrier.

Co-Founder

Erant

04/2022 - 07/2023

erant.cz

- Developed a regionally supported educational guide mobile app (initially a school project) that integrated with local geography and history curriculum.
- Pivoted to a B2B SaaS model, creating a platform for tourism companies and cities to offer custom educational guides to their uses.
- Gained valuable experience in product development, user research, and navigating the complexities of the tourism industry. Project concluded due to challenges in achieving product-market fit.

Software, DevOps Engineer

Freelancer

11/2023 - ongoing

## AWARDS

TOP 65 Highschooler Czech Republic 2022

I was honored with this title for my achievements and extracurricular activities in 2022, namely my startup and my activity in student organizations - More at: stredoskolakroku.cz

International Selection Conference, European Youth Parliament Milano 2021(online)

Through a rigorous selection process I got selected amongst 300 other European students trying to solve the 17 United Nations SDGs. Delegating at committee "ECON 1", in a team effort we made a resolution tackling climate change and rising inequalities utilising alternative economic models and approaches. More at: ismilano20.com

Remembrance List Písek (2022)

Receiving an award by the mayor of Písek, I represented our school and city on events, such as education innovation conferences, we got subsidized by the city to create Geohry, later Erant for local education.

## SOFT-SKILLS

Teamwork

Leadership

Entrepreneurship

Problem Solving

## HARD-SKILLS

Software development

IT, Networking, Computing

design, UI/UX

Management

- Leveraging my knowledge of Software development and DevOps and it's methodologies from leading software startups
- I developed web apps since 2021, started with Wordpress (www.plantcontrol.io), React (webapp.plantcontrol.io) then switched to sveltekit (e.g. my site!), generally coded in all my projects
- Now I'm doing DevOps, I use tools for making Infrastructure as Code, automation, configuration mangement, CI/CD, Cloud solutions, databases

## VOLUNTEERING

### Chairman

#### Student Council of Gymnázium Písek

📅 11/2020 - 1/2022      📍 senatgp

- Within a year I grew an inactive council to 42 active members, together we brought experts to our school and made educational events, we represented our school and made life at our school more fun, we helped bridge the communication between students and teachers
- Our Student Council has been called a "Utopia" by the Czech Highschool Union (ČSÚ), I was invited to Charles University Innovation Lab podcast to transfer our knowledge, its in Czech, on 🎧 click on it here in the .pdf

### Chief Editor

#### Newspapers of Gymnázium Písek

📅 11/2020 - 1/2022      🌐 gymna-pi.cz/gptimes-info

- I started a school Newspaper "GP Times" and designed each issue for some time, I started to like to write at this point.
- It gained over 10 student editors, articles from teachers, was profitable.
- With only the 2nd release we won the 2nd place in a regional newspaper competition, we were 14th on the national level.

### Other volunteering and activities

- Lifetime Scouting - I taught our democratic, helpful values to younger scouts under my supervision, together we clean up our city once a year, help in nursery homes, during emergencies, etc.
- I helped with the creation of a few organizations like: the South Bohemian Student Parliament - 📍 jihocesky or the Association of Czech Entrepreneurship 🌐 podnikavecesko.cz
